STOP. THINK. VERIFY.

Simple tips to keep you safe.

1 Protect Your Accounts
Safeguard your user names, passwords, and PIN's. Don't give them to anyone.

2 Monitor Your Accounts
Check your online accounts and financial statements regularly. Report anything that seems unauthorized.

3 Never Share Security Codes
Your bank will never ask you to provide One-Time Verification Codes, Passwords, PINs to verify who you are. Keep these private.

4 Don't Act on Urgency
Scammers want you to act quickly. If someone pressures you to send money, share information, or make a decision quickly, pause and take a moment to verify.

5 Don't Click Suspicious Links
Unexpected links can lead to fake websites designed to steal your information. Instead of clicking, use the company's official website.

6 Protect Personal Information
Be cautious about sharing your Social Security Number, Account Numbers, Card Information, especially with someone who contacted you unexpectedly.

7 Beware of Payment Scams
Be aware if someone asks you to pay using gift cards, cryptocurrency, or wire transfers. These are often used by scammers.

8 Be careful on Social Media
Scammers use information from social media to make their messages seem convincing. Avoid sharing sensitive personal details.
